HASTINGS COUNTY MINES.

Favorably Spoken of by an English Geological Expert.

Members of the British Association Will Visit

(Montreal Witness, Aug. 2)

"We have in Hastings County those

minerals of every kind, such as gold, silver, lead, asbestos, mica, granite, etc., and

people do not get thousands of miles away

from the old Province of Ontario and Quebec

to engage in profitable mining, under

conditions, too, which entailed untold

hardship and privation," remarked Mr. C. S.

Sanford, of Oranby, Ont., in a "Wit-

ness" reporter, while in the city a day or

two ago, in company with Mr. Weddell, of

Trenton, Ont. "And so we are not mil-

lions away from the mines, but we are

speculators' boom talk," continued Mr.

Sanford.

"Yes; and this has been our result:

the few which have left portions of the

country here, so that we can now see the

rock, and as a consequence have discover-

ed that they are very rich in minerals,"

added Mr. Weddell.

The claims of Messrs. Sanford and

Weddell are also borne out by Mr. Miller

at the recent mining convention in this

city, when he declared that this district

had not received fair treatment so far, and

that some years ago when deposits were

first opened, little was known concerning

mineral resources, and difficulties were natu-

ally met with, and the owners appeared to

have lost courage and worked the mines

with a hesitating and unconfident hand,

so that they tried to make a profit. Mr.

Did Not Want to Pay.
H. A. Emerson, former stage manager of a defunct Black Crook Company, brought an aggregation to the city a few days ago known as the "American Macquary Company." The show is reported to have been fairly good, but business was poor, very poor. The attraction was advertised in the two Ohio sheets, but that failed to draw the crowds. The bill poster was told to wait for his pay, one of the newspapers was given a temporary "stand off," and upon down the list. Mr. Emerson, judging from reports, did not want to pay anyone, lawyers and the bill was sought, and those gentlemen had the effect of producing the entirely impotent Emerson's roll of bills. We are informed that other towns along the line where these people have been, were treated in much the same manner as apparently he wished to try certain citizens here.

A Big Catch.
Messrs. Foy, Dutton and Stoddard, who returned yesterday from a fishing tour to Lake Superior, brought home 200 and 14 mackinnows, which represented 2 days' fishing. While lots of people fish here, still the supply appears to be inexhaustible.

Employees Confederated-A Committee of the Brotherhood Now in Montreal Pressing a Long List of Grievances.
A Toronto paper says:
The Montreal and Maine divisions of the Grand Trunk Railway some time ago sent representatives from the various sections of their branch of the railroad to straighten matters with the officers of the company. It appears they received no satisfaction, hearing or recognition from the local officials, and in consequence a joint meeting of the Brotherhood of Locomotive Engineers, Order of Railroad Men, and Brotherhood of Railroad Trackmen, met on the 28th day of July and confederated the whole of these sections into one. It was decided at this gathering to appoint a committee composed of a conductor, locomotive engineer, fireman, brakeman and trackman from each division to wait upon Mr. McGowan, the Superintendent of the Grand Trunk Railway in Montreal, and there ventilate and argue their many grievances. Although they have been in the City of Montreal since Monday of this week nothing has been arrived at definitely. Before any stringent measures are passed or resorted to by the Brotherhood the Grand Master of the Brotherhood of Locomotive Engineers, Mr. P. M. Arthur, will be called to Montreal from Cleveland, Ohio.

The report of the committee on the State of the Order, presented by Rep. Thompson, speaks approvingly of the Grand Master's action in matters referred to them, and of the manner in which the Grand Master had filled his position, was adopted.
By the report of the Committee present by the Grand Master, it was decided that a suspension to that of a law referred to them a decision of the Grand Master, contrary to the provisions, to a contrary effect.
Decision No. 7, that a law is law is power to "withhold or refuse payment to a widow who has been living apart from her husband under circumstances which, in the opinion of the lodge, disqualify her to widow's benefit," was also approved.
The report was not, however, in line with the decision of the Grand Master, as the question as to moral conduct on the part of the widow, which was involved in the finding of the Committee, was not submitted to the lodge.

CLOSING SESSION.

FRIDAY, Aug. 13.

(Officially Reported.)

The attendance was quite smaller than at previous sessions, a large number of members having departed for their homes. The secret work was exemplified by Grand Representative Hoyle and Grand Secretary.

Committee on Appeals presented reports on matters of general public interest.

Rep. Lewis presented report of Committee on Education, recommending that proposed purchase of real estate by subordinate lodges or lodges for property be accompanied by first submitted to Grand Lodge, or during recess to the Advisory Board.

The matter was discussed at considerable length, and the report was defeated.

Another report recommending legislation empowering lodges to employ physicians and provide for their payment, was adopted.

Also, again, at present providing for a fund for aged Oddfellows.

Also, in favor of reducing the time for holding effect of Grand Lodge from five years to one year, which was adopted.

Also, legislation to carry out the transfer of membership, as previously decided upon.

The report was adopted and read.

Rep. Smith moved for the adoption of the present district system, each lodge to recommend its own D.D.G.M. to the Grand Master for his approval. The motion was carried on resolution of G. R. Hoyle, referring the whole district system to the Grand Master, he to appoint a committee to report at next meeting.

It was decided to refer to the Raleigh Degree the funds paid for lodge charters.

left at 8:30, arriving home about 11:00. When Orr returned, about 11:30, Allison met him at the door and told him that Miss Orr was in the hospital and could not be found. Allison was laughing and seemed to realize that this was a joke. He continued to laugh, however, and, in company with Norman, the young man who the day before had returned from the service last Wednesday afternoon, Anthony Orr left the farm at 7:30 on the morning of the tragedy.

We are constantly receiving compliments upon our Ice Cream. A prominent gentleman of this city came in one morning this week and

personally congratulated us up the
ice cream we had supplied for a so-
cial event at which he was the host.
"You are making lively cream; that
was the finest I ever ate," he said.

The best is the cheapest, then why not buy the best. The Lackawanna Coal sold

you can depend upon it being as near perfect as the purest cream and careful manipulation can make it.

Improvement in Three Weeks.
Six Weeks Complete Cure.

Four years ago Kerema made its appearance on my head in its worst form. I was attended by the best medical men, but they did not cure me. I was then advised to try Dr. Williams' Pink Pills for Pale People. I took a box and the itching and burning ceased. I took another box and the growths disappeared. I took a third box and my hair began to grow again. I took a fourth box and my skin was completely restored. I am now as healthy as a horse and my hair is as black and glossy as ever. I am a great believer in Dr. Williams' Pink Pills for Pale People and I can recommend them to all who are afflicted with any of the above named troubles.

**Want the Exportation of Saw
logs Restricted.**

Canada for the Canadians is the idea expressed in a Resolution Passed in Toronto Yesterday John Charlton and W. C. Edwards, Two Good Liberty Hustlers, Whose Personal Interests are at Stake, Tried to Get the Resolution Passed, But Did Not Succeed.

[illegible]

Resolved: That in the opinion of this section the exportation of materials should be restricted, and with that object in view, the Government of the Province of Ontario be requested to so amend the pine timber regulations that the same shall be under license in the Province of Ontario and be manufactured in Canada."

In speaking to his resolution, Ald. Scott said that he was pleased the Ontario Government had inserted a clause in the regulations which would make yesterday providing that the timber should be manufactured in Canada and those who purchased limits did so on this understanding. Mr. Scott then argued that there is not a single sawmill in Ontario.

[illegible]

"That, in the opinion of this meeting, (then upon the question of imposing export duties, or of prohibiting the export of saw logs, should be deferred till the next meeting of the American association, in view of the possibility of securing a more satisfactory adjustment of the American lumber duties."

Mr. Charlton contended that the Oregan Government had no right to do what the original resolution demanded, as when the sale was taking place, he claimed that the Americans who sought limits on the understanding that they could tow logs from Canada and

"Let them do it," came from a dozen throats, and the speaker, who had been silent for a moment, said, "I think this should be commended."

Dr. Spahr favored the resolution, and the speaker, who had been silent for a moment, said, "I think this should be commended."

Dr. Spahr favored the resolution, and the speaker, who had been silent for a moment, said, "I think this should be commended."

[illegible][illegible][illegible][illegible]

There is much truth in him. I don't think I could tell you. Indeed! Well, I will agree with you. A little more push would prove him.

"I thought, and I'll take the occasion to administer it at 10 o'clock to night," said the doctor.

WAGNER—*continues*.

A Boston paper tells us that 2000 of a city college are under the administration of a woman. The woman is Miss Good and collected, she is a great teacher, and she is a great teacher. I will give the names. After making a list of the names of the students, she is a strong body and left the house. I am afraid I never did see and I never saw her. I am afraid I never did see and I never saw her. I am afraid I never did see and I never saw her.

SHE KNOWS HER ENEMY.

What is it that interested woman has taken to the subject? I suppose it is the fact that she is a woman. Well, if she is a woman, she is a woman. I am afraid I never did see and I never saw her. I am afraid I never did see and I never saw her.

The fact is, that she is a woman. I am afraid I never did see and I never saw her. I am afraid I never did see and I never saw her. I am afraid I never did see and I never saw her.

THE COURSE.

But, I don't think it makes her as sensitive about everything!

Road racing has gained a firm hold upon the popular favor of the citizens of Belleville as was evidenced by the large number that turned out last evening to witness the start and finish of the Ramblers' 20-mile road race. The crowd was so enthusiastic at the finish that they rushed into the street, leaving no room for the riders to get through to the end of the course. A policeman or two were here, however, sufficient to have preserved order, but they were conspicuous by their absence.

SEEKING ANOTHER SNUB.

It is related of a certain individual, the most highly prized of his earthly possessions was a pair of trousers upon the seat of which hung a small, round, silver button. It was a button of great value, and the individual in question had blundered into the way of his insolent Royal Highness as he was hurrying from a crowded function to join his companions. Even afterwards this royal but egotistical person exhibited with the greatest of reverence this garment which had been honored by direct contact with royalty.

A similar story seems to animate a large section of the Grit party at the present time. Not satisfied with the many knicks and scratches which Canada has received from the United States when seeking relaxation of trade relations with our neighbor, they are crying up a new article of merchandise, and another President, in order to make their garments an object of reverence; so they propose to bind Mr. John Charlton, M.P., Liberal, to Washington as a special envoy to seek a modification of the United States tariff on lumber, which was a few weeks ago adopted by Congress after a long and arduous struggle between conflicting interests.

As the people of Canada prepared to submit to the additional humiliation of allowing Mr. Charlton to undertake this legation in their name? Are they so "helpless as the present and dependent as the future?" Is it so easy to let a lumberman, a man who has made a fortune out of a few years ago when seeking, by indirect means, to annex Canada to the United States, to so annex to such a degradation? The lumbermen, however, are not so easily duped. They are not so easily duped as to reproduce a detailed statement of Canada's attempts to secure the relaxation of restrictions placed by our neighbor upon trade relations between Canada and the United States. The statement in question is as follows:

1865—As the old reciprocity treaty was about to expire, Sir John Macdonald, then Prime Minister, sent Mr. George Brown, then Minister of the Interior, to Washington, to secure the renewal of the treaty. But the United States declined to do so.

1867—Messrs. Galt, Howland, Smith and Henry were ambassadors from the British Empire to Washington, to secure the renewal of the treaty. But the United States declined to do so.

1869—An offer was then made through the British Minister at the time of the Paris Convention, to secure the renewal of the treaty. But the United States declined to do so.

1870—The National Board of Trade of Canada and the United States memorialized their respective governments by request of reciprocity in regard to the United States authorities declined to reply.

There are many declarations. It is said that they will not support the Liberal Government, and that Mr. Charlton, if he should go to Washington, will not be sent as an official representative of the Government of Canada.

In any event, who could give such assurance as Mr. Charlton's, and just enough to carry it out, and then to go to Washington, and to be sent as an official representative of the Government of Canada.

Dr. Bonner, who contested North Bruce in the last general election, and who, as a Liberal, has been appointed as Surgeon in the Northwest Mounted Police, and will be on duty at Klondike, the entrance to the Klondike.

Lynching in the city is not confined to color lines. A whiskey informant has been killed by a mob in Franklin County, Virginia. When constituted authorities refused to take action, the mob took the law into their own hands.

The Americanos do not need war vessels, but they need such costly and fragile toys they have docked and taken to pieces. They are not so easily duped as to reproduce a detailed statement of Canada's attempts to secure the relaxation of restrictions placed by our neighbor upon trade relations between Canada and the United States.

Lord Russell, of Killowen, the English Chief Justice, is not only a great lawyer, but a great statesman, and a great orator. He is a man of great power, and a man of great influence.

Mr. Charlton stands in awe of the nation's conscience, and he declares, with a heavy heart, that he is not going to Washington, to seek a modification of the United States tariff on lumber.

Dr. S. J. It is perfectly safe to use at all ages, and does not injure the teeth as many other remedies used for toothache do. Ask your druggist for it.

A TORONTO ACCOUNTANT'S OPINION.
We commenced to young men and women, and to parents of boys and girls who pass through a course in a Business College, the following letter from one of the best known Public Accountants in Toronto.
JOHN MACKEY, Accountant, Audit or, Assessor, Toronto.
Toronto, August 25th, 1897.
Messrs. Robinson & Johnson, Ontario Business College, Belleville.
GENTLEMEN.—It gives me pleasure to state that my reason for writing for the "Canadian Accountant," and your work on Promissory Notes and Drafts is found in the high opinion I formed of your work on Joint Stock Bookkeeping. Of the few publications I sent only one in the highest terms. The principles of sound bookkeeping are developed and applied in an easy, comprehensive way almost every conceivable kind of business in the "Canadian Accountant." The chapters on Commercial Law, Banking and other legal subjects are models of lucidity and highly instructive. In your work on Joint Stock Accounts, which is admirable in every respect, the chapter on mining is of peculiar value as it is so much more widely acted upon it would be most to the interest of a large portion of the investing community. (If your work on Promissory Notes, Drafts and Cheques can only speak in similar terms. If the graduates of the Ontario Business College resemble in point of commercial equipment the works here in referred to, there should be no measure of doubt as to their ultimate success. I take pleasure in bearing this testimony to work of such high quality as yours.
Yours truly,
(Signed) JOHN MACKEY.

Belleville Fair, Sept. 14, 15, 16, 17.
The Directors met last night at the Fair office on Front and to meet again on Monday evening. A telephone has been put in for the convenience of exhibitors, and all enquiries will be promptly answered by Mr. J. M. Hurley, M. P., or Mr. J. A. Conger, the Assistant Secretary. Entries are coming in rapidly and the exhibition promises to be a great success. The downstairs space in the main building will be fully occupied by a fine display, and space on the ground floor is at a premium. There is plenty of room up stairs, however. All space is allotted free of charge. It is to be hoped that our leading dry goods merchants will exhibit. Mr. P. C. Jones was the only one who filled his space at the last fair. The buildings will be brilliantly lit up by electric light at night. Arrangements are being made with Professor Hand for a splendid display of his celebrated fireworks and the 10th Battalion are expected to make a night attack. The judges will be appointed on Monday evening. Let all units to talk up our Bay of Quinte Exhibition and secure the attendance at Belleville, on the three days, of our whole surrounding district. Special rates have been arranged on all railways and steamers. These lands have been negotiated for.

New Fall Overcoats.
We just placed in stock at the Oak Hall today a beautiful line of dark gray light weight overcoats. They are a splendid coat for a man of any age, they are trimmed with the finest fur in. For best rates and up to date plans call on S. Burrows, General Agent.

Police Notes.
A patrol of police found on Pinnacle at last evening can be found by the owner at the police station (all along) at the G.T.H. station yesterday and one of his companions took his watch for a joke. When the sleeper awoke and missed his timepiece he was greatly alarmed and reported the loss to the chief. The watch was returned and the "runner" is himself again.
A number of small boys were summoned to-day to appear in court on Monday on the charge of stealing fruit from the Bayview church grounds.

WHO WORKED THIS JOB?
The People's Coal Co., Supplying Coal to Government Buildings—Local Items Not Asked to Tender.
In conversation with a local coal dealer yesterday it was learned that the People's Coal Co., a concern which has only three business in Belleville, has been awarded the contract for supplying the local Government buildings with coal for the season. The dealer also mentioned that the tender was made by the local coal dealer, Mr. Thomas Stewart, but he was asked to tender for the supply this year. In former years they were sent blank forms of tender to fill out, but at the present time the Administration considered that only a waste of paper and ink.
The People's Coal Co. also put in the coal required at the Deaf and Dumb Institute. It is said, under favor of the Ontario Government officials, who seem to interest themselves very much in matters not laid down in their list of duties. Was it those same two individuals who engineered the above mentioned job? The local agent of the People's Coal Co. is a member of a well-known local G. family, whose connection with party matters has not at all times been above suspicion. Evidently the spoils game is being played here to its full extent.

NOT WITHIN THE LAW.
Toronto Cannot Receive Anything From the Belleville Authorities.
The Toronto News says: "The city's legal department has under consideration the case of the shipping of the small gas stoves, which have been sent to Toronto by the Belleville authorities, and the City Council, of course, will be guided by the opinion laid down by Mr. Fuller. It is known that the Q. C. will advise the Council that the law does not provide for such a case as the one in question and that accordingly, the city will not be able to take the Belleville people for damages for the \$1,200 expended by the Toronto authorities. Criminal prosecutions are also out of the question, so that it is altogether likely that the Belleville people, who were undoubtedly criminally negligent, will get off scot-free and have the laugh on Toronto."
